

19 December 2018

Angus Energy plc

("Angus Energy" or the "Company")

Operations Update

Angus Energy plc (LSE:ANGS), a leading UK conventional oil and gas production and development company, notifies that it has commenced its previously announced commercial flow test programme at the Brockham Oil Field.

The Company will provide an analytical update on the targeted pay zone, the Kimmeridge Layers of the BR-X4Z well, in due course.

The Company's long-term flow testing programme at Brockham Oil Field will temporarily suspend operations over the Christmas and New Year holiday period, from 23 December 2018 – 7 January 2019.

END.

About Angus Energy plc.

Angus Energy plc. is a UK AIM quoted, independent onshore oil and gas production and development company focused on leveraging its expertise to advance its portfolio of UK assets as well as acquire, manage and monetise select projects. Angus Energy majority owns and operates conventional oil production fields at Brockham (PL 235) and Lidsey (PL 241) and has a 12.5% interest in the Holmwood licence (PEDL143) and a 25% interest in the Balcombe Licence (PEDL244).
