Angus Energy Plc
("Angus Energy", "Angus" or the "Company")

Progress Update at Saltfleetby

Angus Energy (AIM: ANGS) is pleased to announce the following progress update at its wholly owned Saltfleetby project:

The commissioning sequence continues but has been delayed by issues arising from communication between different elements of the computer controls on site.

These issues were substantially resolved last night by specialists engaged by the Company and its contractors such that we can now resume the commissioning sequence and move towards commercial production.

As a precautionary measure, the Company has worked with its hedge provider to roll a portion of the Q3 2022 hedge into Q1 and Q2 of 2023. This has allowed the Company to take advantage of the very high forward gas prices and contango to lock a higher average forward sale price at no up-front cost to the Company.

END.
