**Progress Update at Saltfleetby**

Angus Energy (AIM: ANGS) is pleased to announce completion of almost all electrical connections and all instrument connections excepting storage and drain areas. Moreover input/ output testing between the control computer or SCADA and each of the site's 80+ instruments and actuated valves which that SCADA governs is complete.

Input/ output testing on the remaining electrically powered systems including re-boilers, switchgear, air compressors and lighting is expected to conclude on Wednesday (20<sup>th</sup> July) when system-wide testing of the SCADA begins.

We expect to introduce live gas as far as the test separator on Friday (22<sup>nd</sup> July) as part of the commissioning schedule and will advise further on a precise date for export and nominations thereafter.
